Telecom Networks

ART specializes in providing Microwave & RF-based connectivity solutions within the ISM Band, including support for Saudi Aramco in establishing one of the largest onshore and offshore communication networks for the company's facilities. In collaboration with its partners, ART delivers microwave transport and backhaul solutions. ART is also a market leader in Cathodic Protection technology and CP monitoring solutions, with over 1200 installations across KSA.

Since 1999, ART has emerged as a trusted partner of Saudi Aramco for customized oil and gas technologies. The company undertakes sizeable IT, ELV, and telecom procurement, installation, and commissioning projects across various sectors, including oil and gas, petrochemical, manufacturing, and beyond.

M2M Solutions

CP Remote Sensing

Since 1999, ART has evolved into one of the leading partners for Saudi Aramco in bespoke oil and gas technologies. ART undertakes large IT, ELV, and telecom, procurement, installation, and commissioning projects for oil and gas, petrochemical, manufacturing, and others. ART is a market leader in Cathodic Protection and CP monitoring solutions. With over 1200 installations ART has the largest market share in CP Monitoring in KSA.

Advanced Energy Solutions

ART specializes in cutting-edge technology to create and deliver sustainable renewable energy solutions utilizing a spectrum of technologies and partners for industrial, remote/off-grid, and commercial power generation:

Remote Site Power generation/Off-Grid Desert applications ●

Oil & Gas, Defence
Telecommunications/Base Stations

Critical Backup Power/Uninterrupted Supply ●

Hospitals, Hotels and resorts
Compounds and Buildings
Farms and Livestock facilities

Energy & Utilities ●

Rectifiers, Invertors for substations
Hotels, Compounds, resorts, and buildings for which the uninterrupted power supply is of crucial importance

Advanced Energy Solutions ●
ART Off-Grid Power Solutions ●
Renewable Energy Solutions ●

Green Hydrogen

Connected Field

Connect all assets through IoT on a single network

Private LTE networks
 Digital Mining
 Industrial IoT Solutions
 Digital Mine Solutions
 IIoT Solutions for Mining
 No Ownership of IoT Assets - IoT as a Service
 Sensors for every requirement

ERP Solutions

Microsoft Dynamics Partner

Al-Rushaid Technologies, as a Microsoft Dynamics partner, provides ERP solutions to address industry and business process challenges. Their offerings include leadership on key industry and technology trends, immersive demos, expert consultants, and dedicated project management professionals. They leverage ERP and ecosystem to deliver innovative solutions to clients.

PARTNERSHIPS, TECHNOLOGIES & END-CUSTOMERS

SELECTED PROJECTS

2020-
Ongoing

Broadband Infrastructure

Saudi Aramco

Customer: Saudi Aramco (Ongoing)
Scope: Broadband Connectivity Solution (On-Shore & Offshore Expansion) for Data/Tel/Communications Infrastructure for 500+ Offshore and Onshore Facilities, Oil Rigs and operational platforms

Haradh/ Hawiyah/ Tanajib / Safaniya

2015-
Ongoing

Oil & Gas Support services

Saudi Aramco

Multiple Saudi Aramco projects include Installation, testing, Commissioning, Support and After-Sales Services of Remote Data Communications, Active, Passive Network deployment including UPS deployment and commissioning.

Eastern Province

2017-
2023

CP Monitoring

Saudi Aramco

Supply, Installation, Testing & Commissioning of CP RMU Units to enable CP Monitoring including Support and Annual Maintenance Contract (ONGOING) on SCADA, GSM, and Satellite networks. Over 1200 sites deployed.

Eastern Province

2020-
2022

ICT & Telecom Infrastructure

BCI Chemicals Industry

Supply, Installation, Testing & Commissioning including Support and Annual Maintenance Contract of Telephone, Data, Networking, Fiber GPON Infrastructure, Low-Current, Remote Off-Grid Power solutions, Enterprise Infrastructure

Eastern Province

SELECTED PROJECTS

2017

ICT, Security Infrastructure SADARA/SIRTI

Security Surveillance CCTV supply, installation, commissioning and support for SADARA ISS PMT.

Eastern Province

2018

CP Data Acquisition System SAOO Saudi Aramco/Siemens

Deployment of CP Monitoring with 630+ units installed in South Ghawar in 2014 under BI-10007 (Data Acquisition System for SAOO Water Injection Wells)

Eastern Province

2015-
2017

Offshore CP Monitoring Saudi Aramco

Supply, installation and commissioning of Elecsys CP Monitoring for offshore facilities in Tanajib, Marjan. All units are still installed today.

Tanajib, Safaniya, Eastern Province

2017-
2018

MasterGas PKGIII / Fadhili Gas Plant Saudi Aramco

Supply, installation and commissioning of 150+ Elecsys CP Monitoring for Master Gas and Fadhi projects through SOGEC and Abdullah Fouad with end customer Saudi Aramco. Units are being commissioned in Feb 2023.

Eastern Province
